ORDER:

In the letters read above, the Engineer-in-Chief (R&B) Admn.& Roads, Hyd., has stated that the details of following two works in East Godavari District, are as follows:

- i. Improvements to Narasapurapupeta–Katravulapalli road from Km.0/0 to 9/0:

Narasapurapupeta – Katravulapalliroad is an important MDR in East Godavari Dt. with a total length of 36.221Kms. The road is a very important link road connecting four important corenet roads of the District and connects number of MDRs, Rural Roads and number of villages. The reach from Km 0/0 to 0/7 is of single lane (3.66 mts) with BT surface and reach from Km 7/0 to 9/0 is of double lane with BT surface. Traffic intensity on this road is 5014 PCU per day and CVPD is 1323.

The single lane road between from Km.0/0 to 7/0 is not in a position to cater the present traffic needs. Hence to meet the traffic requirements this road has to be widened to double lane. The stretches from Km.0/0 to 0/450 and Km.7/620 to 8/570 are the low lying covered by thickly built up area in the village limits of Narasapurapupeta and G.Mamidada respectively. Due to low laying, water is stagnating in rainy season and causing road damages. Vehicular traffic plying on this road experiencing great difficulty in passing through this damaged stretches. Hence, providing CC pavement with side drain is most essential to mitigate the problem. Further he has proposed to construct retaining walls to arrest slippage of slopes as the road is running on canal bund.

Improvement of the above road which includes widening, strengthening, providing CC pavement with side drain in village limits and construction of retaining wall where slopes are vulnerable.

- ii. Widening & Strengthening of Someswaram – Rajanagaram road from Km.13/7 to 30/8 (working reach from Km.15/250 to 24/0) :

Someswaram – Rajanagaramroad is an important MDR in East Godavari Dt. The road connects Kakinada – Rajahmundry road (in Km.13/7) and ends on A-D-B road Kakinada – Rajanagaram road (in Km.30/8) apart from connecting many SHs, MDRs and other Rural roads and number of villages located, which is very important Agricultural and commercial area. There is heavy commercial traffic on this road. With the recent constructions of new ROB in lieu of LC no.417 in Km.15/0, the traffic has further increased.

(PTO)

The reach from Km.15/250 to 24/000 is of single lane (3.66mts) with BT surface. But due to narrow lane width, the public and traffic are facing very much inconvenience and the present width of the road is not in a position to cater the present traffic needs. The year of last renewal for the above stretch is 2004-05. The road is badly damaged condition. Hence it is very essential to widen this road from single lane to double lane and also to strengthen the road.

2. He has also stated that the above two works do not require any Stage-I approval as contemplated in G.O.Ms.No.94, I&CAD Deptt, dt:01.07.2003.

3. The Engineer-in-Chief (R&B)Admn.& Roads, Hyd., has therefore, requested the Government to accord administrative sanction for the two works i.e., (i) Improvements to Narasapurapupeta to Katravulapalli road from Km.0/0 to 9/0, for an amount of Rs.12.50 Crores and (ii) Widening & Strengthening of Someswaram – Rajanagaram road from Km.13/7 to 30/8 (working reach from Km.15/250 to 24/0), for an amount of Rs.10.00 Crores, in East Godavari District, under Plan MDR.
